DETAILED ACTION

Response to Arguments

1. The finality of the rejection of the last Office action is withdrawn. A new final rejection is applied as follow.
2. The indicated allowability of claim 23 filed 6/13/2005 is withdrawn in view of the Martinez et al. '412. Claim 23 is cancelled and the subject matter of claim 23 is incorporated in claim 20 and the Rejections based on the cited reference(s) follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 20-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Martinez et al. (5,593,412). Martinez discloses a tubular catheter (18) having a narrowed distal tip (32), a pusher (12) having a distal end (20). Note: The introductory statement of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Cox's device which is capable of being used as claimed if one desires to do so. The tubular distal tip having a frustoconical shape (see figure 4 and 5).

Conclusion

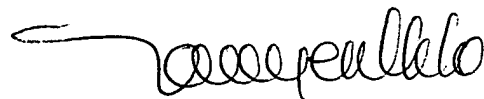

5. Applicant's amendment filed 6/13/05 necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
